Can I Reuse a One-Time Use Number?

Frequently Asked Questions (FAQs) · https://mobilesms.io/docs/reuse-one-time-numbers/

One-time use numbers are designed for single-use verification to ensure privacy and security. However, there are a few exceptions and options to consider:

- **Temporary Second SMS**: For certain platforms, it is possible to receive a second SMS verification code within a **15-minute window** after the initial code, though this is not available for all services.
- **Long-Term Rentals**: For continued access or services that may require repeated verifications, a long-term rental is recommended. Long-term rentals are available in 7, 30, 60, and 90-day options, allowing you to keep the same number over an extended period for added convenience
